

Dial Around Compensation:

1) CDR data received from either PrePaid Calling Card Service Providers (PPCC) or IXC; ANI data received from Payphone Service Providers (PSP).

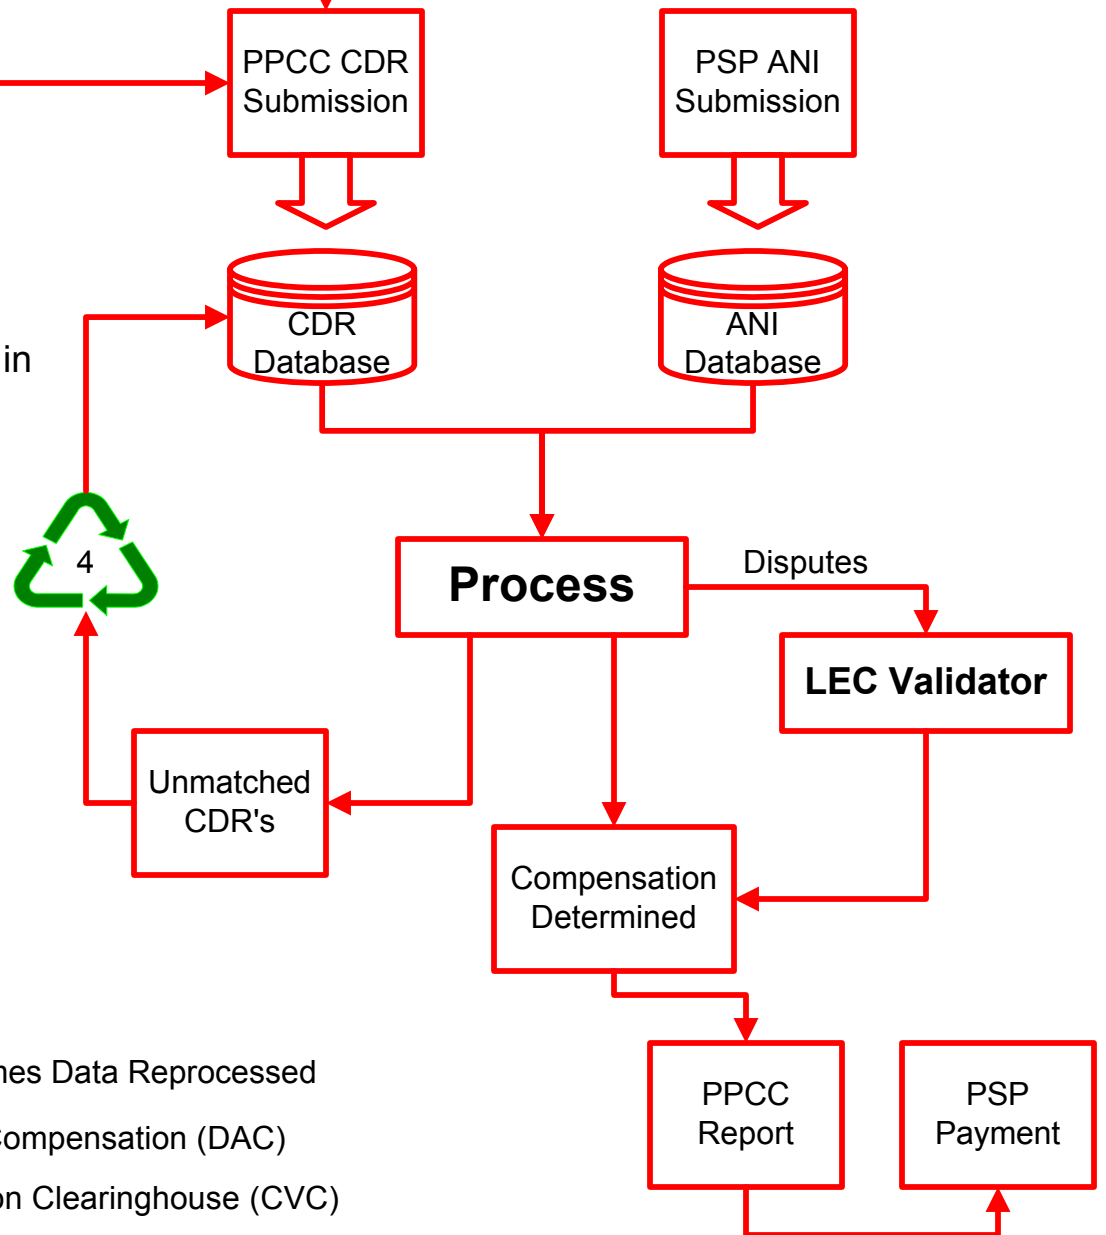

2) Atlantax Dial Around Compensation Clearinghouse Service matches CDR and ANI data in order to determine PPCC liability and PSP compensation.

3) Any unmatched CDR data is recycled for four additional processing quarters.

4) Disputed Data is run through our LEC Validator (95% immediate resolution rate).

5) Once compensation is determined, PPCC's receive reports detailing liability.

6) Payments and Reports detailing the ANI's being compensated are distributed to the PSP's.

-  Number of Times Data Reprocessed
-  Dial Around Compensation (DAC)
-  Call Verification Clearinghouse (CVC)
